#### EDUCATION

Northeastern University,  
Boston, MA | Jan 2017 - Apr 2021  
Candidate for B.S. in Computer Science and Design

#### RELEVANT COURSEWORK

Fundamentals of Computer Science 1 & 2, Object Oriented Design,  
Discrete Structures, Database Design, Typography 1  
Fall 2018: Algorithms & Data, Web Development, Typography 2

#### EXPERIENCE

Intern, DoctorBox Health  
Sausalito, CA | Jul 2018 - Present

Interning at early stage startup founded by repeat entrepreneurs whose last venture in digital education was acquired by Amazon. DoctorBox is seed funded by angel investors, doctors and technologists. I'm helping create content for its release of a beta product in late 2018.

Tutor for Fundamentals of Computer Science 2, NE University CCIS  
Boston, MA | May 2018 - Present

Helped students with challenging coding assignments, graded homework, and ran programming labs with TAs.

Language used: Java

#### VOLUNTEER WORK

Peer Mentor, You're With Us!

Boston, MA | Jan 2017 - Apr 2017 and Jan 2018 - Apr 2018

Worked with a 21 year-old autistic mentee to help her develop skills in preparation for a career. Last year, I worked with a 7th grader affected by cerebral palsy to help the NEU Enabling Engineering Club make itself more accessible and inclusive to people with disabilities.
